

# Hepatitis and Harm Reduction Program

## Our Mission

The Harm Reduction Program works to reduce substance-related harm while enhancing individual, family, and community wellness. We strive to accomplish this work by providing individuals who use substances services in a culturally respectful and responsive manner.

## The Philosophy

Harm reduction is a model of practical principles and strategies that aim to reduce the negative consequences and risks of substance use. It is a person-centered approach which seeks to meet individuals “where they are” by providing services that meet their current needs and circumstances without judgement.

## Services We Offer

Overdose Prevention Training and Supplies

- Naloxone (Narcan)
- Fentanyl test strips
- Rescue Breathing

Referral and Linkage to Care

- Social services
- Healthcare
- Mental and behavioral health
- Substance use treatment

Prevention, Testing, Referrals, and Services

- STD/STI
- HIV
- Hepatitis C

Harm Reduction Education, Sterile Syringes, and Safer Use Supplies

- Injection
- Smoking
- Inhalation

### ● Trust Starts Here

The right to self-determination is an important belief within the harm reduction framework. We strive to uphold each individual’s right to make informed decisions regarding their care and services received.

Our goal is to improve health and wellness, while reducing potential risks and unwanted side effects of substance use.

### ● Who We Serve

- People who use substances
- Friends and family of those using
- Individuals experiencing homelessness
- Commercial sex workers
- Men who have sex with men (MSM)
- Individuals who have been recently incarcerated
